

# AKMAL HAKIM BIN AZUAN

JUNIOR SOFTWARE DEVELOPER

Shah Alam, Selangor | akmalhakimazuan@gmail.com | +6010-7103264 | www.akmalhakimazuan.com

## SUMMARY

Bachelor of Computer Science (Hons) fresh graduate with a strong foundation in both front-end and back-end development, specializing in Java, PHP, HTML, and efficient database management using SQLite and MySQL. Experienced in designing user-friendly interfaces with tools like Canva and developing secure, data-driven applications tailored to user needs. Eager to contribute skills in full-stack development and database handling to a dynamic, growth-focused software team.

## WORK EXPERIENCE

**MOVE Robotics Sdn. Bhd. - Khazanah Youth Development Program** Sep 2025 – Dec 2025

- Completed a 4-month robotics apprenticeship with training in ROS2, Linux, and shell scripting, followed by hands-on OJT.
- Worked with ROS2 (nodes, topics, TF2) to support robotic system integration and simulation testing.
- Designed a 3D robot in Blender, converted it to URDF, and deployed it in RViz2 and Gazebo.

**Efficient GlobalIT Sdn. Bhd. - Intern, System Administrator** Mar 2025 - Jun 2025

- Assisted in maintaining and troubleshooting internal systems, ensuring stable network and system operations across the company.
- Monitored user activity and handled system access rights, backups, and basic server configurations with minimal supervision.
- Responded to internal support tickets, resolved technical issues, and documented system procedures to improve efficiency.

## EDUCATION

**Bachelor's Degree of Computer Science (Hons.)** Mar 2023 - Jun 2025

University Technology MARA (UiTM) Shah Alam, Selangor.

- Specialization in Soft Programming (Full-stack Development, Application Development).
- Final Year Project based on "AI Car Recommender Systems Using Fuzzy Logic".
- Graduated with a CGPA of 3.10.

**Diploma in Computer Science** Aug 2020 - Feb 2023

University Technology MARA (UiTM) Arau, Perlis.

- Relevant coursework in Programming, Database Management, Multimedia and Networking.
- Graduated with a CGPA of 3.63.

## TECHNICAL SKILLS

### • Full-Stack Skills:

- Programming Languages: Java, PHP, C++, Python, HTML, CSS, JavaScript.
- Databases: SQLite, MySQL, PostgreSQL, Oracle DB, PhpMyAdmin.

### • Systems & Platforms:

- cPanel, GitHub, Linux, Android Studio, MS-SQL, Hostinger, Blender, Canva Pro.

### • Languages:

- English (Fluent), Malay (Fluent), French (Basic).
